# How Office for Victims of Crime Uses Performance Measure Data

---

The accuracy and timeliness of reporting performance measure data is extremely important. Data reported by grantees allows OVC to—

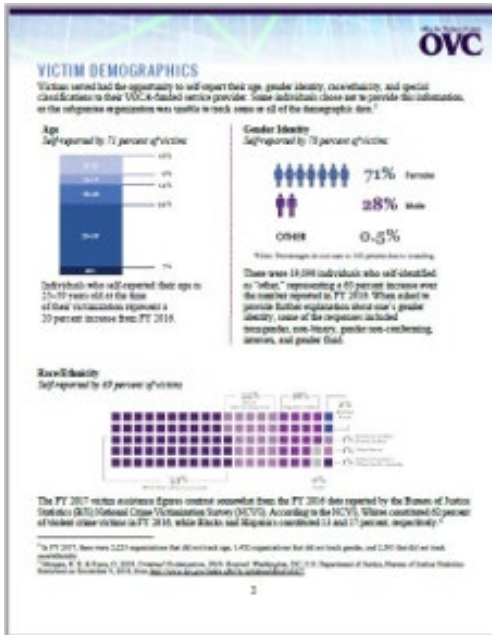

- Demonstrate the value and specific benefits of the program to Congress, federal and state government agencies, the victim services field, the general public, and other stakeholders.
- Generate an annual report on the program to demonstrate output of grant funding.
- Emphasize progress made toward achievement of OVC's strategic and program goals.
- Reach the target audience of grantees, federal partners and agencies, and the general public.

<b>Semiannual Narrative Report</b>	This report includes quarterly data and narrative questions related to grantee and subgrantee activities. Narrative questions cover progress toward goals and objectives.
<b>Final / Close Out</b>	This report is submitted after all grant funds are expended, and aggregates quantitative and qualitative data over the life of the award.

Only OVC-funded activities should be reported. Grantees only need to respond to question sets and specific measures with data that applies to their OVC funded work. Any activity completed from other funding sources should not be included in the collected data.

# Types of Questions

<b>Baseline Questions</b>	Some question banks include baseline questions. Baseline questions gather information about activities that occurred prior to the grant becoming operational. Baseline data for performance metrics is established at the beginning of the data collection process to support an assessment of the initiative. Grantees should enter the same baseline data for each Performance Report.
<b>Current Reporting Questions</b>	Quantitative and qualitative information about grant activity that takes place during the reporting period.
<b>Semiannual Narrative Questions</b>	A series of open-ended essay-type questions where grantees can provide information on grantee and subgrantee funded activity over a six months period.

# Grant Activity

---

1. Is this the **last reporting period** during which the award will have data to report?
2. Was there **grant activity** during the reporting period?\*

*\*Grant activity occurs when the grantee has obligated, expended, or drawn down grant funds to implement objectives proposed in the OVC-approved grant application. An answer of “Yes” indicates that the program is operational and should remain so until the grant closes out.*

- Formalized agreements developed.
- Letters of support secured.
- Level of involvement of partners.

*Note: Baseline question included in this question set.*

# Entering Data into Question Sets

1. Overview 2. MMIP Grant Activity

**Overview**

The following pages detail the supplemental performance measures related to Missing and Murdered Indigenous Persons (MMIP) for the Office for Victims of Crime's (OVC) Tribal Victim Services Set-Aside (TVSSA) grant program. These supplemental measures will be reported on every semiannual reporting period, in addition to the quarterly performance measures that TVSSA grantees report on every quarterly reporting period.

**Goals and Objectives**

Tribes and organizations that receive funding from the OVC TVSSA grant program can use their funds to help MMIP by:

- Providing services to the family members of MMIP victims
- Generating awareness of MMIP among community members in general as well as individual MMIP cases
- Collaborating with Tribal, federal, and state and local officials to respond to MMIP cases.

TVSSA grantees may use their funding to support the following activities related to missing persons:

- Provide financial assistance and support to the families of missing persons.
- Conduct outreach events and other activities to educate the community about MMIP issues.
- Product billboards, flyers, placards, etc. to generate awareness about individual missing person's cases, and, in limited circumstances, support costs incidental to a private search.
- Work with a multidisciplinary, interjurisdictional group of Tribal, federal, and state and local stakeholders to create MMIP response protocols.

TVSSA funds can be used to aid families when the remains of a missing person have been recovered and have been determined to be a victim of homicide. In these circumstances, TVSSA funds can support:

- Reunification costs, including exhumation (if needed), repatriation, and burial of the remains.
- Assistance for survivors of homicide, including financial and civil legal help, as well as family and individual counseling.

**Structure of the Questionnaire**

This questionnaire includes supplemental performance measures that are asked of TVSSA grantees during each semiannual reporting period.

**Reporting Period**

Grantees must report on these supplemental performance measures in the Justice Grants System (JustGrants) on a semiannual basis, until further notice. TVSSA grantees will continue to report on the quarterly performance measures in the Performance Management Tool (PMT) as previously instructed, in addition to reporting on these new, supplemental measures. Below is a table detailing the submission deadlines for the supplemental measures:

Semiannual Reporting in JustGrants		
Reporting Period	Submission Period	Deadline
January 1–June 30	July 1–30	July 30
July 1–December 31	January 1–30	January 30
