

THE CLARK GROUP, LLC

About Us

The Clark Group, LLC (TCG) is an environmental consulting firm, established in 2001 with the goal of helping our clients improve decisions and policies on environmental issues. We use our extensive knowledge and experience to apply, communicate, and develop environmental regulations, policies, and compliance documents for our clients. Our staff are some of the foremost environmental experts in the country with decades of experience working for and on behalf of numerous federal agencies and grant applicants. TCG is comprised of a multidisciplinary team that works alongside senior-level advisors. We are a Small Business Administration certified Woman-Owned Small Business with a commitment to excellence, diversity, and improved environmental outcomes. We find new and innovative ways to implement law and policy for local, state, and federal government; tribes; nonprofit organizations; and private applicants interacting with the federal government. Every day, we help our clients plan and execute projects with informed decision-making and stakeholder buy-in, resulting in sustainable and resilient solutions.

Office for Victims of Crime (OVC) Environmental Compliance Support

TCG is currently supporting OVC with National Environmental Policy Act (NEPA) and related environmental and historic preservation compliance requirements for individual grant projects. Our support includes outreach and technical assistance to grantees in processing NEPA compliance for individual grant projects, development of project-specific environmental assessments, and coordination and development of Endangered Species Act Section 7 and National Historic Preservation Act Section 106 consultations in support of project reviews.
